When you invite a pest control technician into your home, you want to know who is coming and what they know. At Perdue Exterminators, the answer is a small, experienced team that has spent a long time working in Roanoke Valley homes. The family owned company is led by owner and President Jeff Hudson, carrying forward a business founded by S.G. Perdue in 1969.

Experience runs deep on the crew. According to the company's About page, pest control technician Diane Dinardo has been with Perdue since 1980, making her one of the longest serving technicians ***pest exterminator Roanoke*** in the area. Termite and pest control technician Richard Wheeler brings more than 30 years of experience, and termite control technician Lee Cooper has more than 25 years in the field. Office manager Raychel Hudson keeps scheduling and customer communication running smoothly at the Old Cave Spring Road office.

That depth of experience shows up in customer reviews. People who have used Perdue describe technicians who are friendly, professional and careful, including one parent who appreciated the extra care taken when spraying around a two year old. Others note timely service and a company they can depend on every year. Richard in particular is mentioned by name in reviews on the company website, which is a nice reflection of the personal relationships the team builds.

Why Tenure Matters in Pest Control

Pest control is a field where knowledge accumulates over years. Technicians who have crawled under hundreds of Roanoke homes recognize the subtle signs of termite activity, know where mice tend to enter older brick houses, and understand how Virginia humidity affects different neighborhoods. A newer technician might follow a checklist; a veteran knows where to look first.

A stable team also means continuity for customers. With renewable annual termite warranties and recurring general pest service, the same people often return to the same homes year after year. They remember past problems, notice changes and give advice tailored to the property rather than generic tips.

The team handles general pest control, termites, cockroaches, bed bugs, ants, rodents, spiders, crickets, flying insects and insect identification, along with wood destroying insect reports, water testing, septic inspection reports and crawl space mold control.

To work with the experienced team at Perdue Exterminators, call (540) 989-8188 or visit 4323 Old Cave Spring Rd, Roanoke, VA 24018. The company serves Roanoke, Salem, Vinton and Smith Mountain Lake.

FAQ About Pest Control Company Roanoke

How do I choose a pest control company in Roanoke?

Look for licensed exterminators, a long local track record and a company that inspects before it treats. Perdue Exterminators has served the Roanoke Valley since 1969, is still family owned and keeps a small team of long serving technicians who inspect each home's environment and construction before recommending treatment. Call (540) 989-8188 to talk it through.

How much does pest control cost in Roanoke, VA?

Cost depends on the pest, the size of the home and how established the problem is, so an inspection gives the most accurate answer. Perdue Exterminators offers free estimates on termite work and a free inspection and consultation for bed bugs, and the company lists reasonable rates among its priorities. Call (540) 989-8188 for a quote.

Are termites common in Roanoke, Virginia?

Yes. Eastern subterranean termites live in the soil across the Roanoke Valley, and humid summers, clay soil and damp crawl spaces give them ideal conditions. Swarms usually appear on warm spring days after rain. Perdue Exterminators has treated termites in local homes for more than five decades.

Do termite treatments come with a warranty?

At Perdue Exterminators, termite elimination comes with renewable annual warranties. Renewing each year keeps a professional inspecting the home and keeps protection in place, which suits a region where termite pressure returns every season. A documented warranty can also help when you sell your Roanoke home.

How can I tell if I have bed bugs?

Common signs are itchy bites in lines or clusters, small dark spots on sheets and mattress seams, and tiny reddish brown insects around the bed frame or headboard. Because other insects look similar, Perdue Exterminators starts every bed bug case in Roanoke, Salem and Vinton with a free inspection and consultation to confirm the problem first.

Can mice be removed without using poison?

Yes. Perdue Exterminators describes itself as a humane, eco friendly rodent control company and uses baits and traps that do not rely on toxic poisons. Technicians also find and seal entry points such as gaps around utility lines and crawl space vents. The company advises calling as soon as you notice rodents, before they multiply.

When is pest season in Roanoke?

Pests are active most of the year in the Roanoke Valley, just in different forms. Spring brings termite swarms and ants, summer brings wasps, crickets and roaches, and fall brings mice and overwintering insects as nights cool. Year round service from Perdue Exterminators is timed around those seasonal shifts.

Do I need a termite inspection to buy a house in Virginia?

Many lenders ask for a wood destroying insect report, and most buyers want one either way. Perdue Exterminators prepares these reports for Roanoke Valley home sales and also offers water testing and septic

inspection reports for properties on wells and septic systems. Call (540) 989-8188 to schedule before your closing deadline.

What areas does Perdue Exterminators serve?

Perdue Exterminators serves all areas of Roanoke, Salem, Vinton, Smith Mountain Lake and the surrounding communities. The office is at 4323 Old Cave Spring Rd in the Cave Spring area of southwest Roanoke County, where the family has been based since the early 1980s.

Why are there so many crickets in my basement?

Camel crickets thrive in damp basements and crawl spaces, which are common in older Roanoke homes with stone or block foundations. Reducing moisture with a dehumidifier and repaired gutters helps a great deal. Perdue Exterminators provides cricket extermination and also helps eliminate and control crawl space mold caused by the same dampness.

Is a local pest control company better than a national chain?

A local company usually means familiar technicians, a local office that answers the phone and real knowledge of area housing and pest patterns. Perdue Exterminators has a technician who has been with the company since 1980, and its motto is large enough to serve you, but small enough to know you.

How long has Perdue Exterminators been in business?

S.G. Perdue founded the company in 1969, starting out of his house and the trunk of his car. His son Andre later joined the business, and today it is led by owner and President Jeff Hudson. It remains a family owned pest control company serving Roanoke.
