Save on Crypto Trading Fees

Trading fees are an important part of the overall cost of buying and selling digital assets. The **Bitget App Referral Code SAVE40** may provide eligible users with promotional trading fee savings under the applicable referral campaign.

The exact fee benefit can depend on the current Bitget offer, account eligibility, trading activity, and other conditions. Users should verify the latest promotion before trading.

Claim Up to 6,200 USDT Rewards

Eligible new users may also have an opportunity to participate in Bitget promotions offering rewards of up to **6,200 USDT**. The maximum advertised amount represents the potential reward under the applicable campaign and is not guaranteed for every participant.

Users may need to complete specific requirements, such as qualifying deposits, trading volume targets, or promotional tasks. The exact reward structure depends on the active campaign.

Who Can Use the SAVE40 Referral Code?

The **SAVE40 referral code** is intended for users who qualify for the relevant Bitget referral promotion. New users should check the campaign rules before opening an account to make sure they meet the eligibility requirements.

Existing Bitget users may not be eligible for new-user referral benefits. Promotional availability can also vary by region and campaign period.

Why Apply a Bitget Referral Code?

Using a referral code before completing registration gives eligible new users a chance to access available promotional benefits. For users planning to trade regularly, potential fee savings can help reduce trading expenses.

The referral program can also provide an opportunity to participate in new-user reward campaigns, subject to the applicable requirements and terms.

Important Things to Consider

Before using **Bitget Referral Code SAVE40**, review the current promotion carefully. Discount percentages, reward amounts, eligibility rules, qualifying activities, and campaign periods can change.

The maximum reward of **6,200 USDT** should not be treated as a guaranteed payout. Cryptocurrency trading also involves significant financial risk, so users should understand the ***Bitget*** risks and platform terms before trading.
