- **The Power Throw:** Untrained players heavily prefer Rock in the opening round because it feels physically effective and definitive.

- **Win-Stay, Lose-Shift:** When players win a round, they often duplicate the winning relocation. When they lose, they cycle to the next choice in series (Rock to Paper, Paper to Scissors, Scissors to Rock).

Strategic Approaches for Bettors

Technique Description Finest Used Against **The Mirror** Copying the challenger's previous move in the next round. Newbie gamers who repeat winning patterns. **The Counter-Counter** Predicting what your challenger *thinks* you will play, and playing the counter to that.
