2. The Split-Bet Strategy (Using Dual Betting)

- **How it works:** Place one big bet with an auto-cashout set extremely low (e.g., 1.20 x) to cover your initial stake, and put a second, smaller sized bet that you manual-cashout for higher multipliers (e.g., 5x or 10x).
- **The Goal:** Mitigate losses. If the second bet wins big, it's pure profit; if it crashes early, the very first bet hopefully cushioned the blow.

3. The Martingale (Proceed with Caution)

- **How it works:** Double your bet after every loss, intending to recuperate all previous losses with a single win at a 2.00 x multiplier.
- **The Risk:** This requires an enormous bankroll and can quickly hit table limits or exhaust funds throughout a cold streak. Utilize this technique only with strict loss limits.
