Pro players follow the 80-20 rule: focus on sequences first, then sets. Discard high-point cards early unless they are part of a near-complete sequence. Keep track of jokers - if you have two jokers, you can afford to take more risks with sequences. Bluffing by discarding cards near to what you need can mislead opponents online. Expert Tips and Tricks to Improve Your Game For beginners: Start with practice tables for at least 10 hours before cash games. Learn point calculation thoroughly - Face cards = 10 points, Number cards = same as value, Joker = 0. Practice making pure sequence with different card combinations. Join beginner tables marked for new players where competition is fairer and stakes are lowest. Conclusion
