2. Pachinko

- **Frequency:** 2 sectors on the wheel.
- **How it works:** Inspired by the standard Japanese arcade video game, players are required to a big Pachinko wall filled with pegs. The host drops a puck from the top, and it bounces its method down into among several multiplier zones at the bottom. If the puck arrive on a "DOUBLE" slot, all multipliers on the board double, and the puck is dropped once again.

3. Cash Hunt

- **Frequency:** 2 sectors on the wheel.
- **How it works:** This is a shooting gallery-style benefit round. An enormous screen shows 108 random multipliers hidden behind different signs (like a cactus, a target, or a sheriff's badge). Gamers utilize an on-screen crosshair to pick a single target before a timer goes out. Once time ends, all targets reveal their hidden multipliers.

4. Crazy Time

- **Frequency:** 1 sector on the wheel.
- **How it works:** The supreme reward round. The host opens a red door leading into a vibrant, whimsical virtual world featuring a massive virtual wheel with 64 sectors and three flappers (green, blue, and yellow). If the two line up on the payline, that multiplier is used to the section for that round. Multipliers can reach up to 50x in the base game and even greater inside the benefit rounds.
- **High Production Value:** The studio modifications point of view, uses augmented reality, and includes energetic live hosts who communicate with chat, keeping the environment vibrant and engaging.
