If they cash out in time, they win their stake increased by the present value. If the game crashes initially, the bet is lost.

In **Big Bass Crash**, this mechanic is wrapped in the familiar, dynamic fishing aesthetic. Rather of a rocket, a jet, or a crypto coin taking off, players enjoy an angler cruise out on his boat, attracting a net filled with catches as the multiplier rises.

How Big Bass Crash Works: Step-by-Step

- **Bet 2:** Left under manual control to chase after greater multipliers (e.g., 5x, 10x, or more) for a possible big payment.

2. Conservative Low-Multiplier Grinding

This technique involves setting an auto-cashout at a really **Bitz** conservative level (such as 1.20 x to 1.35 x). While the specific wins are small, the statistical likelihood of the game crashing *before* 1.20 x is lower than it crashing at greater numbers. Nevertheless, a single early crash can erase numerous rounds of collected profits, making strict bankroll management crucial.
