What is Avia Masters?

Avia Masters is an arcade-style online gambling establishment game that falls under the popular "crash game" classification. Unlike standard slot machines where the result is figured out simply by fixed signs on paylines, crash video games focus on a dynamic multiplier curve.

In Avia Masters, players put a wager and see a little airplane take off. As the airplane climbs greater into the stratosphere, a multiplier coefficient begins to increase from 1.00 x upwards. The primary objective is deceptively easy: **squander before the plane crashes or flies away**.

If a player successfully squanders before the crash event, they win their initial stake multiplied by the existing coefficient. If the plane crashes before they hit the cash-out button, the stake is lost.

Core Game Mechanics: How It Works

- **The Multiplier Curve:** Driven by a certified Random Number Generator (RNG), the multiplier starts at 1x and can in theory reach high worths, though it can also "crash" nearly instantly.
- **Manual vs. Auto Cash-Out:** Players can pick to manually click the cash-out button at their desired minute, or they can set an automobile cash-out limit. For example, setting it to 2.00 x means the system will instantly gather jackpots if the airplane reaches that multiplier.
- **Dual Betting Panels:** Many versions of Avia Masters enable players to place two separate bets all at once on the same round. This opens tactical possibilities, such as squandering one bet early to secure profit while letting the 2nd bet trip for a higher multiplier.
