What is Crazy Time?

At its core, Crazy Time is a live online video Crazy Time Game game show built around a giant, vertically mounted monetary wheel. A charismatic, live human host spins the wheel while communicating with players via a live chat room. The primary goal is basic: players position wagers on where they believe the wheel will stop.

Nevertheless, the game is even more complex than a basic carnival wheel. It integrates cutting edge video production, slots mechanics, and immersive bonus offer video games that transport gamers into virtual worlds.

The Game Wheel Breakdown

The Crazy Time wheel features 54 sectors. Each section represents either a number (1, 2, 5, or 10) or one of four bonus video games. The frequency of each outcome on the wheel determines its payout capacity and likelihood of landing.

Wheel Segment Payment/ Type Variety of Segments on Wheel Probability (%) **1** 1 to 1 21 38.89% **2** 2 to 1 13 24.07% **5** 5 to 1 7 12.96% **10** 10 to 1 4 7.41% **Coin Flip** Bonus Round 4 7.41% **Cash Hunt** Reward Round 2 3.70% **Pachinko** Bonus Round 2 3.70% **Crazy Time** Benefit Round 1 1.85%

As displayed in the table, basic numbers appear most regularly, providing lower payments, while the desirable benefit rounds appear much less typically but hold the potential for huge multipliers.

The Top Slot: Adding Extra Spice

Before every spin of the main wheel, a two-reel slots placed directly above the wheel spins at the same time.

- **Reel 1** screens among the wheel's wagering segments (numbers or bonus offer video games).
- **Reel 2** screens a multiplier (varying from 2x up to 50x).

If the sign on Reel 1 matches the result of the main wheel spin, the multiplier on Reel 2 is used to that win. If a perk video game is chosen by both the Top Slot and the primary wheel, the base multipliers inside the bonus offer round are quickly enhanced, setting the stage for possibly astronomical payouts.

Checking Out the Four Exciting Bonus Rounds

The true body and soul of Crazy Time are its 4 perk rounds. When the wheel stops on a perk segment, players who positioned a wager on that section are transferred into a secondary game.

1. Coin Flip

- **Frequency:** 4 segments on the wheel
- **How it works:** An easy yet thrilling game of opportunity. A coin with a red side and a blue side is flipped instantly by a machine. Before the flip, 2 random multipliers are assigned-- one to the red side and one to the blue side. Whichever side lands face up wins the assigned multiplier for the player.

2. Money Hunt

- **Frequency:** 2 segments on the wheel
- **How it works:** Players deal with a massive virtual screen including a grid of 108 random multipliers. These multipliers are then covered by different signs and shuffled. Gamers have a minimal time to aim and "shoot" at a sign on the screen to expose their concealed multiplier. Each player can pick a various symbol, leading to different outcomes.

3. Pachinko

The host drops a puck from the top of the wall, and it bounces arbitrarily down through the pegs up until it lands in among numerous multiplier zones at the bottom. If the puck lands in a "DOUBLE" zone, all multipliers at the bottom double, and the puck is dropped once again.

4. Crazy Time

- **Frequency:** 1 sector on the wheel
- **How it works:** The ultimate bonus round. The host opens a red door, stepping behind it into a gigantic, vibrantly colored virtual world including a huge, 64-segment wheel.
- Gamers must pick one of three flappers (Green, Blue, or Yellow).
- The wheel is spun, and whatever multiplier the selected flapper indicate is granted.
- Much like Pachinko, if the wheel arrive on "DOUBLE" or "TRIPLE," all multipliers on the wheel increase, and the wheel is spun once again, as much as an optimum incredible multiplier limitation of 20,000 x.
