What is a Live Casino?

A live casino is an online gaming platform that streams real-time table video games from expert studios or real land-based casinos. Unlike basic digital casino video games powered by Random Number Generators (RNGs)-- where results are identified purely by computer algorithms-- live gambling establishments include human croupiers dealing real cards, spinning physical live roulette wheels, and communicating with gamers by means of live chat.

The setup uses high-definition (HD) cams, several streaming angles, and Optical Character Recognition (OCR) innovation. OCR equates physical information from the game (like a dealt card or a live roulette number) into digital data, allowing players to place bets effortlessly through their smart devices or computer systems while enjoying the action unfold live.

Why Live Casinos are Booming in Kenya

Kenya boasts one of the most lively and progressive digital economies in Africa. Several key factors add to the explosive development of live gambling establishments in the nation:
