

White fillings at Whites Dental Marble Arch offer a more natural looking alternative to traditional metal amalgam fillings, blending in with the surrounding tooth for a less noticeable repair. The practice uses white fillings as part of its general restorative dentistry, addressing cavities and minor damage while maintaining a natural appearance across the patient's smile. White fillings are often chosen by patients replacing older metal fillings as well, particularly those focused on the overall cosmetic appearance of their teeth alongside general dental health.

Whites Dental Marble Arch (W2) [Homepage](#) | 52B Kendal St, St George's Fields, London W2 2BP | 020 3576 2325

The procedure is typically completed within a single visit, making it a convenient option for patients needing to address a cavity without a lengthy treatment process. For white fillings in Marble Arch, contact Whites Dental on 020 3576 2325 or visit 52B Kendal St, St George's Fields.
