Online shops sell phone screen repair kits for a few pounds, complete with a tiny screwdriver, a plastic pick and a cheerful video that makes the job look like ten minutes of work. For some very patient people with steady hands and a spare phone, it can turn out fine. For many others, the kit becomes a drawer full of loose screws and a phone that now works worse than when it was merely cracked. Here is a fair look at what you are taking on.

The first problem is that modern phones are sealed. Many are held together with adhesive that has to be warmed and carefully cut, and the display is attached to the frame by flex cables that tear if you pull in the wrong direction. A slip with the pick can snap one of those cables or press through into the battery, and a damaged battery is a safety matter, not just an inconvenience. The kit does not come with experience of how much force is too much, and that is the one thing you cannot buy in a bag.

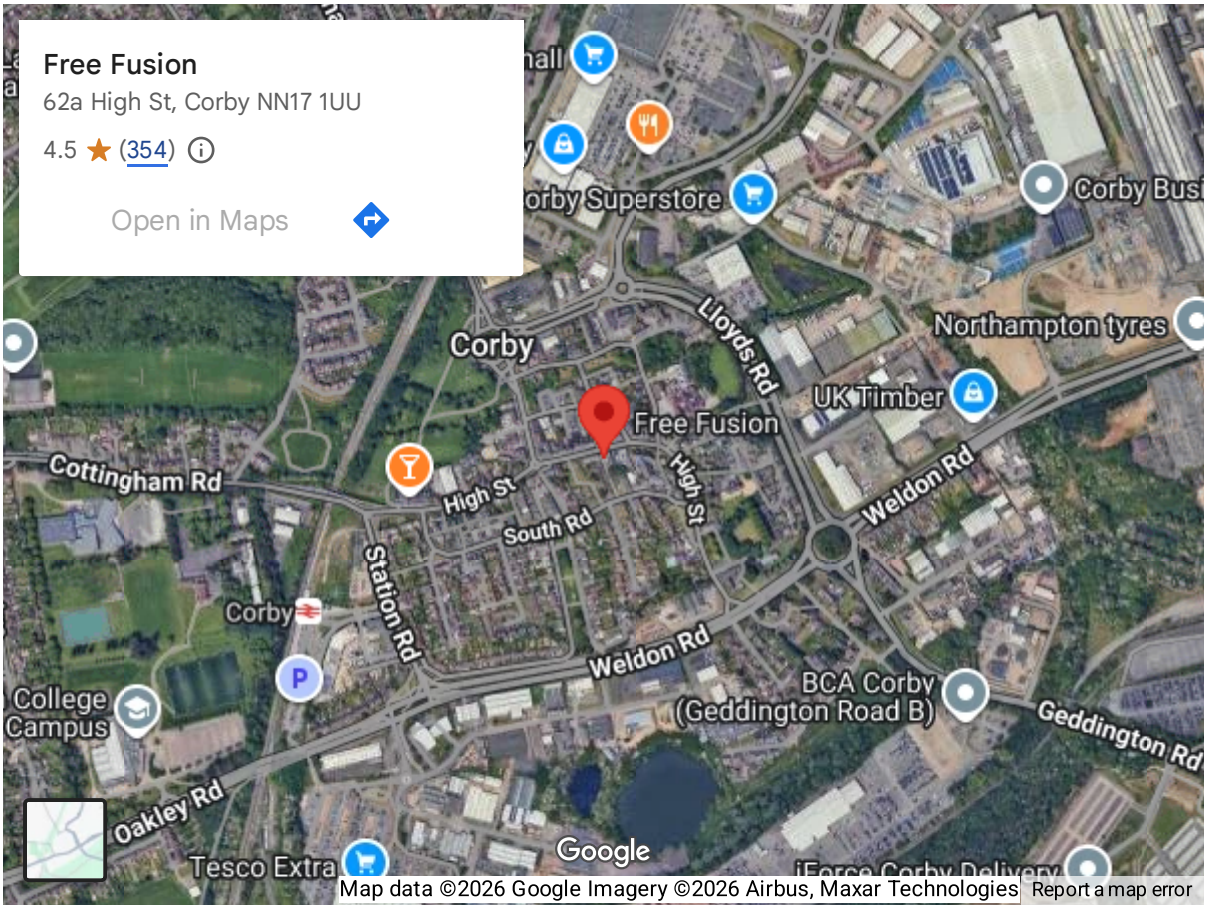

The second problem is everything that is hard to see. Tiny screws vary in length, and putting a long one in the wrong hole can damage the board. Face recognition or fingerprint parts can be disturbed, and water resistance seals often end up weaker after a home repair. You may also find that the cheapest replacement displays in kits are dimmer or less responsive than the original, which only shows up once the phone is back together. And if it goes wrong, a professional now has a more complicated phone to fix than the one you started with.

Free Fusion | 62a High St, Corby NN17 1UU | 01536 260 558

Professional repair costs more than a kit, but it also removes most of the risk. At Free Fusion in Corby we do this work daily, and iPhone screen replacements start from £24.99, so the price gap is smaller than people expect. Most smartphone screen replacements are finished within about an hour, and our repairs are backed by a warranty. If your phone turns out to have a second fault, such as a swollen battery or a loose charging port, we can spot it and tell you, which a home repair will never do.

If you have already tried a DIY repair and it has gone sideways, do not panic and do not keep forcing things. Bring the phone and any parts you removed, and we will have a free look at what can be saved for local customers. If you are further afield, a postal repair via Royal Mail or DPD works across the UK. Ring phone screen repair 01536 260 558 or come to 62a High St, Corby before you buy the kit.

FAQ About

Phone Screen Repair How much does it cost to fix a phone screen? Prices vary by model and screen type. At Free Fusion in Corby, iPhone screen repairs start from £24.99 and iPad screen repairs from £39.99. Local customers get a free diagnosis, so you will know the exact price for your handset before any work begins. How much does an iPhone XS screen repair cost? The price for an iPhone XS depends on the exact model and the screen being fitted, so the quickest way to get an exact figure is to call Free Fusion on 01536 260 558. Our iPhone screen repairs start from £24.99, and we will confirm the price for your model before we start. Most iPhone screen replacements are done in about an hour. How much does an iPhone screen repair cost in the UK? Across the UK the price depends on the model, and newer iPhones generally cost more to repair than older ones. At Free Fusion in Corby, iPhone screen repairs start from £24.99. We also offer a postal service, so you can get the same pricing wherever you live in the UK. How long does a phone screen repair take? Most smartphone screen replacements at Free Fusion take about an hour, and most repairs are completed the same day. You are welcome to walk into our Corby centre and wait, or call 01536 260 558 first to check we have the part for your model. Is it worth repairing a cracked phone screen? For most phones it is, particularly when repair prices start from £24.99 and the rest of the phone works well. A cracked screen can let in moisture and dust and can get worse over time. If you are unsure, Free Fusion offers a free diagnosis for local customers so you can decide with the facts in front of you. Can you repair the screen on my Samsung, Pixel or iPad? Yes. Free Fusion repairs screens on Samsung Galaxy phones, Google Pixel, iPads and Apple Watches as well as iPhones, plus screens on MacBooks and laptops. Call 01536 260 558 with your model and we will talk you through the options. What should I do straight after cracking my phone screen? Back up your phone if you can still use it, and avoid pressing on broken glass or touching sharp edges. A screen protector film or clear tape over the glass can keep it from shedding while you get to a repair shop. Then bring it to Free Fusion at 62a High St, Corby, or call 01536 260 558 for advice. Can a screen with lines, flickering or a black display be repaired? Often yes, though the cause can be the screen itself or something else inside the phone. That is why a proper diagnosis matters. Free Fusion offers a free diagnosis for local customers in Corby, so you only pay for the repair that is actually needed. Is a screen repair covered by a warranty? Yes, repairs at Free Fusion are backed by a warranty. Ask the team about the terms that apply to your repair when you visit us in Corby or phone 01536 260 558. Do you offer postal phone screen repair? Yes, we repair devices sent in from anywhere in

the UK using Royal Mail and DPD. Posted devices are typically tested and dispatched on the day they arrive. Call 01536 260 558 before you send anything so we can advise on the best way to package it.
