Choosing the Right Dumpster Size with D.E.M.M. Dumpsters LLC

One of the biggest headaches in dumpster rental is picking a size that fits your debris volume without paying for unused space—or worse, overfilling and facing extra fees.

D.E.M.M. provides a range of sizes with clear dimensions and volume to help you decide. Here's a quick size checklist for common projects:

Dumpster Size Dimensions (L x W x H) Approx. Volume (cubic yards) Best For
10-yard 12' x 8' x 3.5' ~10 Small remodeling projects, garage cleanouts
15-yard 14' x 8' x 4' ~15 Medium-sized renovations, fencing, roofing tear-offs
20-yard 16' x 8' x 4.5' ~20 Large home renovations, rental turns
30-yard 22' x 8' x 5' ~30 Major construction, roofing projects

Always ask D.E.M.M. representatives via email for their recommendation based on your debris estimated volume. They also provide an easy-to-access **24/7 online booking** system and **customer login** portal to manage your rental once scheduled.

Understanding Weight Limits & Overage Charges

One thing I absolutely hate in the dumpster rental industry is when companies hide weight limits in fine print, only to hit you with surprise overage fees after pickup. D.E.M.M. DUMPSTERS LLC does right by customers by clearly stating weight limits and charges upfront.

Here's what you need to know about their weight policies:

- **Weight Limits:** Each rental size has an included weight limit—commonly around 2-3 tons depending on size. This will be spelled out clearly in your rental agreement and any email correspondences.
- **Overage Fees:** If you exceed the weight limit, D.E.M.M. charges a transparent per-ton fee. These fees are outlined before you book or sign contracts, avoiding bait-and-switch pricing.
- **Fill Lines:** They provide exact fill line measurements on the dumpsters. Please do NOT overfill past these lines, as it creates safety issues and fees. This is another reason to email questions early if you're unsure.

Fast, Transparent Pricing You Can Trust

Request a detailed quote by emailing dumpsters@demmdumpsters.com and you'll get a clear breakdown of:

This clear pricing helps you budget your project confidently without surprises.
