This technique of bleaching can generate results that last approximately 6 months to 3 years. On the other hand, at-home [Safe Teeth Whitening](#) bleaching packages offered by an oral specialist cost typically between \$100 to \$600.

HOW TEETH WHITENING WORKS

THE SCIENCE BEHIND A BRIGHTER SMILE

PEROXIDE PENETRATION

Active ingredients like hydrogen and carbamide peroxide penetrate tooth enamel and dentin.

OXIDATION & STAIN BREAKDOWN

Peroxides initiate oxidation, targeting chromogens (stain molecules) and breaking them down.

BRIGHTER, WHITER SMILE

Broken-down chromogens become lighter and more transparent, revealing a whiter tooth color without structural damage.
