Few parts of the city carry as much history as Llandaff, and many of its older homes need a roofer who understands period property. Parts of Llandaff fall within a conservation area, which means roof work here often calls for a little more thought than a standard repair. Redland Roofing Cardiff is an independent, family-run business from South Wales with over 30 years of experience serving Cardiff and South East Wales, and the team regularly works on period roofs across the north west of the city. Period roofs tend to fail in predictable places. Good slate can last a very long time, sometimes outlasting the building itself, but the fixings, flashing and lead work around it wear out much sooner. Common causes of leaks include cracked flashing around chimneys and skylights, failed lead work, worn valleys, blocked gutters and slipped or missing slates. Chimney stacks are another weak point, and the team carries out brickwork repairs, repointing and new flashing, as well as full chimney removal where a stack is no longer needed, including clearing away the waste. Careful like-for-like work keeps the character of a Llandaff home intact. Planning is worth considering before any major job. Like-for-like roof replacement usually falls under permitted development, but conservation areas, listed buildings or a change of roofing materials may need consent from Cardiff Council. Redland Roofing Cardiff has experience working in conservation areas such as Pontcanna and parts of Roath, so the team understands the gutter and roof services Cardiff extra care involved ***roofers cardiff*** and can talk you through what your Llandaff roof is likely to need. The same service is available to neighbours in Llandaff North, Danescourt and Radyr.
