What is Crazy Time?

However, what separates **Crazy Time Demo** Crazy Time from basic money wheel video games-- like *Dream Catcher*-- is the addition of the **Top Slot**. Above the primary wheel sits a two-reel mini fruit machine that spins simultaneously with every primary wheel spin. This Top Slot creates a random multiplier for a particular bet segment, which can drastically enhance payouts if that segment hits on the primary wheel.

The Betting Options

The 54 sectors on the Crazy Time wheel are divided into numbers and reward rounds. Gamers can bank on any combination of these options:

- **Number 1:** Appears 21 times on the wheel (pays 1:1)
- **Number 2:** Appears 13 times on the wheel (pays 2:1)
- **Number 5:** Appears 7 times on the wheel (pays 5:1)
- **Number 10:** Appears 4 times on the wheel (pays 10:1)
- **Coin Flip Bonus:** Appears 4 times on the wheel
- **Money Hunt Bonus:** Appears 2 times on the wheel
- **Pachinko Bonus:** Appears 2 times on the wheel
- **Crazy Time Bonus:** Appears 1 time on the wheel

The Four Wild and Wacky Bonus Rounds

The real heart of the Crazy Time experience depends on its 4 interactive bonus offer rounds. Whenever the wheel stops on one of these sectors, players who placed a bet on that particular bonus round are transferred to a secondary video game area, either physically in the studio or via immersive digital graphics.

Reward Round Frequency on Wheel Maximum Potential Multiplier Description **Coin Flip** 4 sections 5,000 x An easy red and blue coin is turned to determine a multiplier. **Cash Hunt** 2 sectors 10,000 x A shooting gallery screen with 108 random multipliers concealed behind symbols. **Pachinko** 2 segments 10,000 x A radiant puck is dropped down a peg wall to land in a multiplier slot. **Crazy Time** 1 sector 20,000 x An enormous virtual wheel behind a red door providing life-altering multipliers.

1. Coin Flip

This is the most frequent benefit round. The host steps up to a digital flipping device. A coin with a Red side and a Blue side is flipped, and whichever side lands face up awards the corresponding multiplier to the gamer. Before the flip, multipliers are randomly assigned to both sides, and a "Rescue Flip" can in some cases happen if the initial multipliers are deemed too low.

2. Money Hunt

Players are presented with a huge screen showing 108 random multipliers camouflaged behind different shooting gallery icons (like a cactus, a target, or a constable's badge). Utilizing a virtual cannon, the gamer should aim and fire at one symbol before the timer goes out. When the timer expires, all signs expose their covert multipliers, and the player wins the multiplier behind their picked target.

3. Pachinko

Motivated by the standard Japanese arcade video game, this round includes an enormous physical wall filled with pegs. The host drops a radiant puck from the top, and it bounces randomly down the board until it lands in among the slots at the bottom, each containing a multiplier. If the puck lands in a "Double" slot, all multipliers on the board double, and the puck is dropped again approximately a maximum multiplier limitation.

4. Crazy Time

The holy grail of the game. Gamers pass through a mysterious red door into a virtual, psychedelic wonderland including a huge 64-segment wheel. Before the wheel is spun, the player must select one of 3 flappers (Green, Blue, or Yellow). The wheel spins, and whatever multiplier the picked flapper indicate is granted. If it indicates "Double" or "Triple," all multipliers on the wheel increase, and the wheel spins again approximately a maximum cap of 20,000 x.
