

HydraFacial Visits Between Talking Stick and Shea Boulevard Between the shops and resort traffic around Talking Stick and the steady flow of cars along Shea Boulevard, east Scottsdale moves quickly, and skin care often gets squeezed into whatever time is left. A HydraFacial is popular partly because it fits into a busy week. At The Skin Shop Medspa Scottsdale, a registered nurse-owned practice on N Scottsdale Rd near Shea, the treatment is customized to the person in the chair rather than run the same way for everyone. The HydraFacial combines cleansing, gentle exfoliation, extraction and hydration in one appointment. Because desert air pulls moisture from the skin and summer weekends often mean pool time and sun, many Scottsdale clients appreciate the hydrating step as much as the deep clean. The treatment is generally known for little or no downtime, so most people return to their normal plans afterward, though how your skin responds is discussed with the nurse beforehand. Sensitive skin deserves a careful plan, and Google reviewers have specifically mentioned that their HydraFacial was adjusted for sensitivity. That customization might mean choosing different boosters, adjusting intensity or pacing visits differently. Results vary from client to client, and a complimentary consultation is the place to decide whether a HydraFacial, a traditional facial or a chemical peel makes the most sense for your skin right now.

The Skin Shop Medspa Scottsdale | 10632 N Scottsdale Rd Ste [med spa scottsdale](#) A, Scottsdale, AZ 85254 | (480) 948-1759

Talking Stick sits to the south-east of the practice, so the drive usually runs along the Loop 101 and then west on Shea or north on Scottsdale Road, depending on where you start. Once you arrive, on-site parking and free street parking make it simple to pop in. Reviewers often describe the space as calm, clean and welcoming, a noticeable change of pace from the busy roads outside. A typical visit starts with a short conversation about what your skin has been doing lately, whether that is dryness after a summer of chlorine, congestion from sunscreen and sweat, or dullness after a hectic season. The nurse then moves through the cleansing, exfoliating and extraction steps before finishing with hydrating serums chosen for your skin. Many clients schedule a HydraFacial on a regular rhythm, sometimes alongside a chemical peel or microneedling at other points in the year. Members of the practice's membership program often fold facials into their routine, and Google reviewers who are members have described the program as worth it. For anyone in east Scottsdale searching for a med spa in Scottsdale that treats a facial with the same attention as an injectable appointment, The Skin Shop Medspa Scottsdale is worth a call. The office is open Tuesday, Wednesday and Friday from 10am to 5pm and Thursday and Saturday from 10am to 3pm. Reach the team at (480) 948-1759 or visit 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254.

The Skin Shop Medspa Scottsdale Address: 10632 N Scottsdale Rd Ste A, Scottsdale, AZ 85254 Phone: (480) 948-1759 FAQ About Med Spa Scottsdale What is the difference between a med spa and a day spa? A day spa focuses on relaxation services such as massages and basic facials, while a med spa provides medical aesthetic treatments like Botox, dermal fillers, microneedling and laser procedures. At The Skin Shop Medspa Scottsdale, those treatments are performed by registered nurses who are certified nurse injectors. Every plan begins with a review of your health history during a complimentary consultation. Who performs the treatments at The Skin Shop Medspa Scottsdale? Treatments are performed by the co-owners, Cyndie Nohr, RN and Shelly Stump, RN, both registered nurses and certified nurse injectors with more than 50 years of combined medical experience. They met while training at the National Laser Institute, where each earned certifications in laser, advanced injectables and cosmetic procedures, and they still treat clients personally. How much does Botox cost at a med spa in Scottsdale? Botox pricing depends on how many areas are treated and how much product each area needs, so the cost varies from person to person. At The Skin Shop Medspa Scottsdale, the nurse explains pricing for your specific plan during a complimentary consultation before any treatment. Google reviewers often describe the pricing as fair for the quality of care, and a membership program and financing options are available. How long does Botox last? For most people, the effect of a neurotoxin such as Botox or Jeuveau lasts about three to four months before muscle movement gradually returns. Results vary with factors such as the area treated, muscle strength and metabolism.

The nurses set an individual maintenance schedule during your consultation, and online booking through Fresha makes it easy to plan the next visit. How long do lip fillers last? Hyaluronic acid fillers such as Juvederm and Restylane commonly last six to twelve months or longer, depending on the product used and the area treated. Results vary, and your own timeline is discussed at a complimentary consultation. Co-owner Cyndie Nohr, RN is known for natural-looking lip filler and a go slow approach that leaves room to add more later. Is microneedling good for acne scars? Microneedling is commonly used to help improve the look of acne scarring and uneven texture by prompting the skin's own repair response. The nurses at The Skin Shop Medspa Scottsdale are candid that the goal is improvement rather than removal, and results vary with the type and depth of the scars. Some clients also discuss PRP therapy or Vivace RF microneedling as part of their plan. How many microneedling sessions will I need? Microneedling is usually planned as a series of sessions spaced several weeks apart, because the skin responds gradually. The exact number depends on your skin, your goals and how it responds, so the nurse sets the plan during a complimentary consultation. Reviewers mention receiving a follow-up text after treatment to check how their skin was settling. What is a HydraFacial and is there downtime? A HydraFacial combines cleansing, gentle exfoliation, extraction and hydration in one appointment, which suits skin dried out by the Arizona climate. It generally involves little or no downtime, so most people return to their normal plans afterward. At The Skin Shop Medspa Scottsdale, the treatment can be customized for sensitive skin, something Google reviewers have specifically mentioned. Is laser hair removal permanent? Laser hair removal is best described as long-term hair reduction rather than a permanent result. It requires a series of sessions spaced weeks apart because hair grows in cycles, and results vary by skin type, hair color and treatment area. Both owners hold laser certifications from the National Laser Institute, and sessions are planned around Arizona sun exposure. What should I avoid before Botox or filler? Before injectables, the nurses ask about medications and supplements that may raise the chance of bruising, as well as recent treatments, allergies and upcoming events. It is best to follow the specific guidance you receive at your consultation rather than stopping any prescribed medication on your own. Scheduling filler well ahead of weddings or photo shoots also leaves time for any swelling to settle. Does The Skin Shop offer a membership or financing? Yes. The Skin Shop Medspa Scottsdale offers a membership program for clients who visit regularly, and members who have left Google reviews describe it as worth it. There is also a financing and payment options page for larger treatment plans. The nurses can explain which option fits your plan when you call (480) 948-1759. How do I choose a med spa in Scottsdale? Start by asking who will perform your treatment and what their credentials are, then look for a practice that offers a thorough consultation and sets honest expectations. Read reviews for patterns rather than single comments. The Skin Shop Medspa Scottsdale is RN-owned, offers complimentary consultations, holds a 5.0 rating from 79 Google reviews and sits on N Scottsdale Rd near Shea Blvd.
