A hanger is a broken limb caught in the canopy that drops days later without warning, and it is the most common cause *Mountain Park tree service tree service mountain park ga tree removal mountain park ga tree cutting mountain park ga mountain park tree service tree trimming mountain park ga tree pruning mountain park ga* of injury ***emergency tree removal mountain park ga*** after a North Fulton storm. It is nearly invisible from the ground, which is why an inspection from a line finds things an owner cannot. Hanger notes at %LINK%.
